

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

Cancel claims 6-9.

1. (original): A method of forming a resin film from a resin for a middle portion to form a resin film main body of the resin film and a resin for edge portions to form both side edge portions in a crosswise direction of the resin film, the method comprising the steps of:

joining the resin for the middle portion in a molten state and the resin for the edge portions in a molten state in such a manner as to enclose both side edges in the crosswise direction of the resin film main body with the resin for the edge portions; and

extruding the joined resins through an extruding die to form the resin film.

2. (original): The method as defined in claim 1, wherein a degree of enclosing the resin for the middle portion with the resin for the edge portions is adjusted according to a difference in MFR between the resins.

3. (original): The method as defined in claim 1, wherein a degree of enclosing the resin for the middle portion with the resin for the edge portions is adjusted according to a difference in extrusion rate between the resins.

4. (original): The method as defined in claim 1, wherein a degree of enclosing the resin for the middle portion with the resin for the edge portions is adjusted according to a difference in resin temperature between the resins.

PRELIMINARY AMENDMENT

U.S. Appln. No.: 10/725,053

Attorney Docket No.: Q78706

5. (original): The method as defined in claim 1, wherein a degree of enclosing the resin for the middle portion with the resin for the edge portions is adjusted according to a width of the resin film.
